OPENING OF NEW MINING VEHICLE WORKSHOP

1.00pm
Friday
24 August 2007
Vought Engineering Services
4 Kennington Drive, Tomago
(off Old Punt Rd)

Sharon Grierson will officially open Vought Engineering Services' new Tomago workshop.

The workshop will manufacture and service Vought's new Highlander Shuttle Car for use in the underground mining industry.

"I welcome Vought Engineering Services to Tomago," Ms Grierson said.

"It's a great investment that builds on our reputation for advanced, innovative manufacturing."

"With the Tomago workshop to grow from its current workforce of ten, it also highlights the flow-on benefits to our community from the mining industry."

"I look forward to a long and fruitful relationship between Vought Engineering and the Newcastle community."
